ABOUT THE COURSE:

Our Course on CP for Careworkers is a five-day course for all workers involved in the care and support of children, and their families, living with CP in low-resource settings. It aims to empower care workers to effectively and competently assist children affected by CP in growing, playing and learning within a supportive environment.

This course is balanced through a combination of teaching strategies including workshops, facilitated practical sessions, group problem-solving sessions, role plays and active reflection. During the course, the participants gain practical skills that enable them to offer more effective and comprehensive care to children affected by CP and are ultimately equipped to care for them holistically, with a long-term impact in mind.

COST: R2000

COST INCLUDES: COURSE MANUAL & LIGHT REFRESHMENTS

COMPLETE THE APPLICATION FORM & EMAIL IT TO VUTOMI@CPCHILDREN.ORG

By the end of the course, Participants will:

- Understand the main types of CP and the different GMFCS levels Understand handling ideas for the different types of CP
- Know how to incorporate play, communication and functional vision into the child's daily routines
- Understand the basics of safe eating and drinking for children with CP
- Implement a 24 hour postural management programme for Level 4 and 5 children
